

KITCHEN SYNC

FEATURING QUINTIC PUTTER FITTING SYSTEM

Have you ever considered that approximately 50% of your score comes from putting? The game was set up for exactly 50% of your score to be done with your putter. Consider this---a PGA Tour player averages 30 putts per round. The putter truly is the "great equalizer" in golf. It allows you to make up for all of the other mishaps during that hole, with one simple stroke.

Quintic Ball Roll

The Launch Monitor for Putting...

The Quintic Ball Roll System utilizes a high-speed camera to track the putter and golf ball throughout the impact zone. The system automatically measures over 45 parameters regarding the putter and ball, providing instant data for our technicians to analyze and review with you to improve and fit a putter for you to make more putts and lower your scores.

DRIVER FITTING

\$80

Up To 60 Minutes

Shopping for a new driver? Wondering if you can improve the performance of the driver that's already in your bag? Let our PGA & TrackMan Fitting Specialists help you discover the distance, accuracy, and consistency you're looking for. We will help you choose the correct driver specs (loft, shaft, flex) and in some cases even the golf ball that will help you maximize your potential.

ENTIRE SET FITTING

\$170

Up To 120 Minutes (Split Between 2 Sessions)

Perfect for the person looking for a new complete set of clubs and wants to make sure that every club in their set is exactly right for them. Our TrackMan Fitting Specialist will go over every club that you are interested in and make sure that they are perfect for you. (Excludes a Putter Fitting)

GOLF BALL FITTING

\$40

Up To 30 Minutes

Often ignored, the golf ball is one of the most important pieces of equipment in your bag. By testing spin rates with your driver, fairways, hybrids, irons, or wedges, and considering the aspects of the game that are most important to you (distance, control, greenside spin, etc.), our TrackMan Fitting Specialist will recommend the best golf ball for your game.
